ABOUT

Hi, I'm Abdo, I'm an enthusiastic and humorful guy with roots in Egypt and born in Austria, who loves to programm and help others. I am a really big open source enthusiast. Currently I am working on a Open Source delivery Platform build on top of "Svelte-Kit" and the "Koa" Framework. The beginning of 2021 and the months after were a bit tough because my father had died, but my friends and family were here and gave me strength and that's why I love helping and collaborating with other because they give you the power to do anything. In my free time I like watching Anime, TV-Shows, playing basketball, football and going out or to the gym.

EDUCATION

2010 - 2015	GRG Erlgasse
2015 - 2020	HTL Moedling

- Studied Electronics and Technical Computer Sciences/Informatics

2020 - Now   University of Applied Sciences Upper Austria, Campus Hagenberg

- Studying Mobile Computing (MC). Currently in the 3rd Semester
- Since this Semester 2 of my colleagues and I are students' representatives for 3 departments: oeh.fh-ooe.at/campus/hagenberg

WORK

09/2018 - 09/2020   **MEDIA MARKT AT, SCS**

- Saturday Job
- Worked as a "Technical Sales Advisor" in the "Mobile Department" and simultaneously in the "Computer Department" because of my salesmanship and knowledge

03/2020 - 05/2020   **DRINKS AND THINGS**

- Freelancing
- An online Shop written using NextJS as the Framework and "Shopify" for the backend. It's open source and the shop is online under drinksandthings.wien
